What other parents had to say:

- ★ My two boys love their Writeboards. I can have them doing activities on their Writeboards for long periods of time, without them even realising that they are doing work.
- ★ I purchased this kit for my 3 year old daughter. She loves her Writeboard & all the colourful worksheets. I love the fact that she wants to use it & learn new things.
- ★ My son loves his School Readiness Kit. I would recommend this product to anyone that is getting their child ready for school.
- ★ My daughter loves using the colourful worksheets with her Writeboard and her iPad. We are also able to *reuse all our books and our own worksheets* with the Writeboard as well.
- ★ My son was practising his letters on the Writeboard on Saturday afternoon. A friend of mine dropped in and said to him "are you doing schoolwork?", he said "no this is not schoolwork, this is fun".
- ★ My daughter loves her School Starter Kit & her Writeboard. I have noticed that her confidence level has improved and even her teacher has commented on how well she is doing at school.
- ★ This Kit was recommended by my son's Tutor. After only two weeks of using his Writeboard with the worksheets, I could even see the improvement in his handwriting.
- ★ My daughter's handwriting was very messy. I found the Advanced School Kit. Her handwriting has improved out of sight and now she is learning her times tables and how to tell the time.

Kids Love Using Our Writeboard, it makes learning FUN!
